

RUTUJ DHODAPKAR

Data Science • Artificial Intelligence engineer • Python Developer
linkedin/in/rutujdhodapkar rutujdhodapkar@gmail.com Pune, Maharashtra, India
rutujdhodapkar.vercel.app

Research-Focus AIML Full Stack Developer

Research-focused AIML Full Stack Developer passionate about building intelligent, scalable systems that bridge advanced AI research with real-world engineering.

Education

JSPM University, Pune

2025-2028

B.Tech, Artificial Intelligence and Machine Learning.

K.K.Wagh Polytechnic, Nashik

2022-2025

Diploma, Artificial Intelligence and Machine Learning.

Technical Skills

Artificial Intelligence Machine Learning Big Data Analytics
Computer vision Deep Learning Cloud Computing Neural Networks
 LLM NLP Python R Java

Experience

V Analytics, Intern

2025-2025

Internship on Machine Learning, Deep Learning, AI, Cloud computing.

Certifications

Aws Academy	SEP-2024
Cloud Computing	
Aws Educate	NOV-2024
Machine Learning	
IIT Bombay	APR-2025
Spoken Tutorial, Git Training	
IIT Bombay	MAR-2024
Spoken Tutorial, Java	
IBM, Skill build	APR-2025
Machine learning	
IBM, Skill build	APR-2025
Object Detection	

Projects

Chess AI	2024-2025
Multiple AI models to Predict Each move and generate a best possible move.	
have total parameters of 800 millions.	
Everything AI	2025-present
Multiple AI agents to perform various tasks to automate everything in users computer systems.	
Diabetics Detection ML model	2024
ML model to detect if user having diabetics.	
Have 2 models of parameters 17k, 410 million,	
Virus	2024
.exe file, which extracts various type of user data, self replicates, left no fingerprints and logs, executes limited tasks remotely, upload data to public.
